System armed in away mode.

🏠 **Stay Arm**
It sends notifications for any detection,
recording activated without notification.

🔒 **Arm**
Away mode recommended for nobody at home.
It monitors the activity and sends notifications.

🔓 **Disarm**
System is disarmed. Only motion detection will activate
the recording and sends notifications.

SOS **Panic mode**
User can choose to sound the siren or
call the emergency number.

Touchscreeh Alarm System

Voice Prompt

Intelligent voice prompt to operate, voice report all working state.

Contact ID

Ademco Contact ID Honeywell is the most popular protocol that allows alarm system to communicate with Central Monitoring Stations. It contains user ID information and alarm information, as well as alarm system's status information.

Call-In Prompts

Dial in to the system remotely, and follow the voice prompts for easy operation. When triggered, T1 will call you about what's happening, and you can choose either to disarm the system remotely.

Real security with built-in 90 decibel siren

24 Hours Protection

90+dB Siren

Public Switched Telephone Network

Store up to 6 Regular Phone Numbers

16 Hours Battery Back-up

Plug & Play Kit

Powerful features includes

Protection against lost alarm messages

Protection against interference between remote controls

Protection again interference between devices

* Support Contact ID & SIA TCP/IP protocol for central monitoring station
* Touch Keypad operation, password protected
* Up to 50pcs sensors , 50pcs RFID Card & 10 remote controls can be expanded
* Sensors, Remote control , RFID card names can be customised .
* Two wired zone special for smoke/gas/vibration/ detector, IR beams
* Store up to 3 groups of SMS number , 5 groups of phone number, 2 speed dialing number, & 2 CMS number.
* Alarm output enable you to trigger the equipment as light, TV etc. to deter the intruder immediately
* Immediate push notification for low battery, power lost and power recovery.
* 3.7V/900mA Lithium Battery Back-up Last for 12 Hours
* 110dB Internal Siren sound and mute mode for optional
* Tamper protection
* Work with Alexa, Google Home

Smart-Wireless RF Signal Repeater

Plug and Play device, easy to use.

80 x 37.5 mm

FHSS Smart Plug:
Indoor Siren & Status Indicator
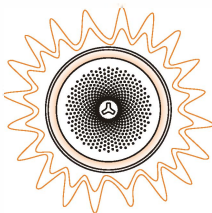

Synchronous alarm, more peaceful.

When alarm occurs, the repeater will sound at the same time with the control panel.
You will never need to worry about missing the alarm.

Boost Your RF Range Coverage, More Attentive

Connect to the door bell, more practical.

The repeater can be used as a loudspeaker after connecting to the door bell. When a guest rings the bell, the repeater makes a Ding-Dong to remind the host the arrival of your guest.
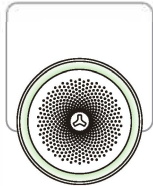

Synchronous status indicator, less worried.

When the system is armed or disarmed, the repeater LED indicator flashes.
Three color LED light, soft & even light, you can feel more comfortable.

FHSS Smart Plug:
Gas Leakage Detector

Gas detector, much safer.

Inflammable gas detector is a reliable way to ensure safety and compliance. It detects the presence of gas fast before it bursts into flame.
It's suitable for house, office, garage, hotel, restaurant etc.
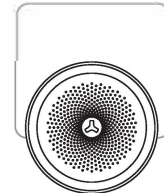

2in1 Smart Sensor

Specially designed for request-to-exit applications, combined with a PIR motion detecor & door/window sensor. It detects whether the window, door, sate or roller blind is opened or not, with low false alarm rate.

Reliable Technology-FHSS Hopping Frequency

128 bit AES Anti-Interference Frequency Technology

Multichannel, Frequency Hopping Spread Spectrum technology enables the system to hop between wireless frequency channels to ensure the seamless transmission of secure communications between devices and the control panel and data transmission and ensuring that devices are able to consistently communicate when needed. 128 bit AES encryption offers exceptionally high level of protection against analysis tools and digital attacks. Other powerful features include protection against lost alarm messages, interference and frequency blocking.

Peace Of Mind-MAKYTA Global View

MAKYTA Global View, as an innovative developer and manufacturer of security system, is committed to bring you peace of mind for both person & home. Based on the successful experience of worldwide counterparts, MAKYTA Global View offers targeted security products and system solution in elegant design combined with both functional and aesthetic value (from wireless sensors, smart controlling, and wireless security system).

Lighting Control System

works with the Google Assistant   amazon alexa
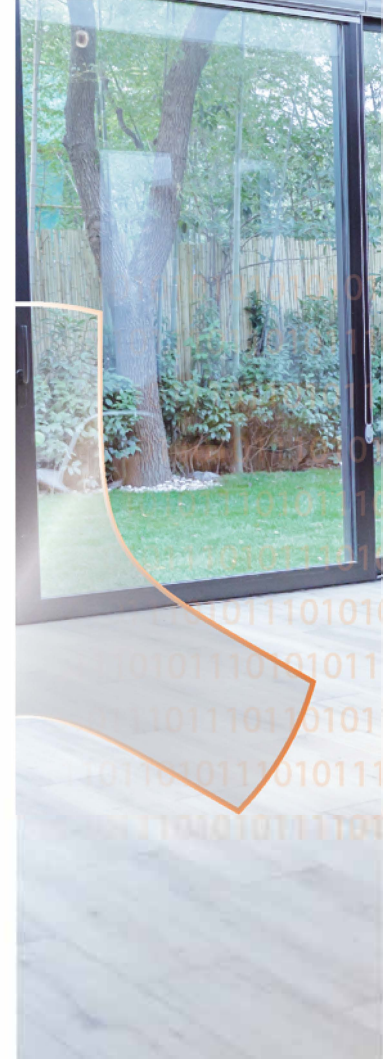

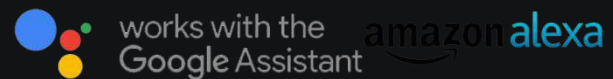

Switches are the core part of the lighting system. Once installed MAKYTA Smart switches, your whole lighting system could be controlled in linkage mode.
